

AMENDMENTS TO THE CLAIMS

The following listing of claims will replace all prior versions, and listing of claims in the application:

LISTING OF CLAIMS:

Claims 1 - 15 (Cancelled).

Claim 16 (Previously presented) A method for controlling network using a data processing system having a dual monitor, the method comprising the steps of:

constructing a network using a plurality of computers and a server, the computer using a dual monitor having first and second monitors as a display means, the server connecting the plurality of computers with the network to control them and connecting to an Internet; and

displaying results processed by a program used by a user on the first monitor and an information provided by the server on the second monitor, when the user connects to the network using the computer, the server securing a control right to the second monitor of the user's computer and controls the use of the second monitor by the user's manipulation.

Claim 17 (Original) The method as claimed in Claim 16, wherein the information displayed on the second monitor is a message or ad contents provided and displayed by the server.

Claim 18 (Cancelled).

Claim 19 (Previously presented) A method for controlling network using a data processing system having a dual monitor, the method comprising the steps of:

constructing a network using a plurality of computers and a server, each computer using a dual monitor having first and second monitor displays, the server connecting the plurality of computers with the network to control them and connecting to an Internet; and

displaying results processed by a program used by a user on the first monitor and an information provided by the server on the second monitor, when the user connects to the network using the computer, when the plurality of the computers connected to the network are used as a settlement system, the first or second monitor displays being respectively connected to a reporter's computer and a deciding officer's computer to respectively display settlement contents transmitted from the other parties' computers and the other monitors display different data except for the settlement contents.

Claim 20 (Original) The method as claimed in Claim 16, wherein, when the plurality of the computers connected to the network are used as a message communication system, the received message is displayed on the second monitor.

Claim 21 (Original) The method as claimed in Claim 16, wherein, when at least two or more users work jointly with the same program using the plurality of computers connected to the network, the contents of the other party's work is displayed on the second monitor to work while confirming the contents of the other party's work at the same time.

Claim 22 (Original) The method as claimed in Claim 16, wherein, when the plurality of the computers connected to the network are used as a video communication system, a digital camera is mounted on each computer, the user's picture is transmitted to the other party's computer, and at the same time, the user's picture is displayed on one of the first and second monitors, and the other party's picture is displayed on the other monitor.
